

## THE BEVERAGE PEOPLE

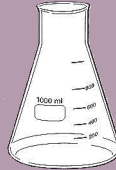

### Winemaking - Simplified SO<sub>2</sub> Additions

(USING SODIUM OR POTASSIUM METABISULFITE POWDER)

#### Prepare a 10% SO<sub>2</sub> Solution

Dissolve 100g metabisulfite into 1 liter distilled water. Stopper and use in 3 months or replace.

(Measure by weight or use a 4 oz. package minus one level teaspoon.)

#### Additions of 30 ppm to various wineers using the 10% solution

For 5 Gallons add 10 ml  
(Use a 10 ml graduated syringe.)

For 30 Gallons add 60 ml  
For 60 Gallons add 120 ml  
(Use a 100 ml graduated cylinder.)
